

1 sources of information that I had.

2 Q Right, again, and those would have been the
3 chart note, correct?

4 A The chart note, conversation with Dr. Moko
5 and my conversations with Mr. Wood.

6 Q Okay. I guess the point that I am really
7 trying to ask you about is, when you said with
8 extensive past asbestos exposure, those wouldn't have
9 been -- that would have been a paraphrase of Mr.
10 Wood's words?

11 A I am not sure if that would have been his or
12 that may have been my interpretation of the
13 situation.

14 Q And when you talked or when you referenced
15 in your note the extensive past asbestos exposure, is
16 what you were referring to his occupational history?

17 A Yes.

18 Q Okay. And, again, that would have been his
19 employment as a longshoreman and his employment at the
20 garage, right?

21 A Yes.
