Lead-Free Products

Attached is a list of all our line products showing whether they comply with the regulations that restrict the presence of heavy metals.

As you requested, we have reformulated the lines that need it to meet the new requirements. The limits were 1% January 13, 1971, .5% January 1, 1973, and .06% January 1, 1974. We are not going to meet each requirement as it comes due but rather are formulating to meet the January 1, 1974 in one step.

In the process of meeting these requirements, we have had to use pigments that have raised the cost of some of the colors. I would like to meet with you as soon as possible to go over the changes and reach a decision if this is what you want.

As you know, any paint that could be intended or packaged in a form suitable for use in or around the house must meet these deadlines. There are also some local rules of a like manner with different times and requirements.

L. L. Back, Assistant Director
Cleveland Coatings Laboratory

R Hunter
