

June 22, 1933

Mr. A. E. Mittnacht
Ethyl Gasoline Corporation
Chrysler Building
New York City
New York

Dear Mr. Mittnacht:

I have your letter of June 20th relating to the use of a trucking company for the transportation of Ethyl Fluid in specially constructed tank trucks.

I discussed this point with Mr. Walter some time ago and gave my tentative approval to this general type of arrangement. I see no reason for modifying my point of view. Therefore, I hasten to reply and to give my approval to your general plan. I shall take up the matter with Dr. Machle and shall leave to him the consideration of the details of your program when they shall have been worked out. I shall be quite willing to accept Dr. Machle's position in the matter when you have given him the details.

Very truly yours,
