

GET RID OF AIR ACCUMULATIONS IN PIPE LINES...

a **BIG**
Trouble Saver that
Costs You LITTLE!

When air lodges at high spots in pipe lines, it reduces the effective area of the pipe, creates a friction head, lowers pumping capacity, and may result in serious water hammer! Simplex Air Release Valves bring you a sure, efficient cure for these difficulties... venting air automatically before it can cause damage.

The Simplex Air Valve is easily installed... positive in action... ample in capacity. Standard valves for pressures up to 250 p.s.i. special valves for pressures up to 800 p.s.i. Thousands have been in successful use for over 30 years.

VALVE AND METER COMPANY

NON-STICKING! TIGHT CLOSING! —no pressure build-up

DAVIS
NO. 13
AUTOMATIC
PRESSURE
REDUCING
VALVES

EXCLUSIVE DESIGN—

Single seated, tight closing, non-sticking. Large diaphragm, sensitive pressure adjustment. Compact, rugged, self-contained.

TROUBLE-FREE SERVICE—

Built-in strainer, finest quality, all internal parts readily accessible and renewable without disturbing piping. Long economical service with minimum time out for repairs or replacement.

FOR STEAM, AIR OR GAS—

For initial pressures to 250 p.s.i.; reduced pressures, 1 to 100 p.s.i. Sizes from 3/8" to 2". Semi-steel bodies bronze or stainless trim. Economical for use on small units.

Begin on page 15

method covered in 18-page catalog 10-A-10; miniature panel-mounted integrator-indicator presented in 4-page catalog 12-10; pneumatic instruments for gas sp. gr. measurement discussed in 4-page catalog 14-A-13; construction, installation and design features of remote, miniature, pneumatically-operated indicator explained in 13-page catalog 15-10. Each of the above is illustrated and contains full size fittings. Fischer & Porter Co., Hialeah, Fla.

PIPING, VALVES, SPECIALTIES

52 Diaphragms, gasketing, sheet packing, oil seals, rod and valve stem packings, etc. featured in 1-page, 3-color booklet dealing with Wilson rubber products. Bulletin AD-147, Orlow Packing Co., Palmyra, N. Y.

53 Tubular equipment operation at elevated temperatures and pressures covered in new data card. Detailed specs on full range of seamless and welded carbon, alloy and stainless steel tubing and piping. TDC 154, Babcock & Wilcox Co., Desver Falls, Pa.

54 Standard nut and bolt dimensions and thread specs even in new data sheet. Murphy Diesel Co., 3111 W. Burnham St., Milwaukee 14, Wis.

55 Oilless rubber bearings and their various applications discussed in 22-page catalog. Photos, dimensional drawings, full specs. Lucian Q. Moffitt, Inc., 325 S. Main St., Akron, Ohio.

56 Bronze gate valves described in two folders. Photos, application data, full specs for various valves included. Lunkenheimer Co., Box 140, Cincinnati 14, Ohio.

57 High-pressure tube and pipe fittings presented in 18-page, 3-color catalog. Photos, dimensional drawings, full specs. Catalog 553, Floder Corp., 1934 E. 46th St., Cleveland 8, Ohio.

58 Pocket - also directory supplies name, street address, phone number of 33 Cooper Alloy stainless steel valve and fitting distributors. Cooper Alloy Valve Co., Hialeah, Fla.

PRIME MOVERS & ACCESSORIES

59 Gasoline engines for stationary, automotive and marine applications covered in 4-page, 3-color folder. Photos, cutaways, exploded views and full specs on horizontal and vertical models of 404, 451, 477 cu-in displacement. Bulletin L-1586, Twin Coach Co., Kent, Ohio.

60 V-type diesel engines of 11 and 11 cylinders ranging from 310 to 4300 hp described in 4-page reprint. Photos, cutaway views, full specs incl. Bulletin 197, Nordberg Mfg Co., Milwaukee 1, Wis.

61 Diesel engines, ratings and descriptions and typical installations presented in 48-page booklet. Photos and specs incl. Bulletin 14, W. Burnham St., Milwaukee 14, Wis.

PUMPS

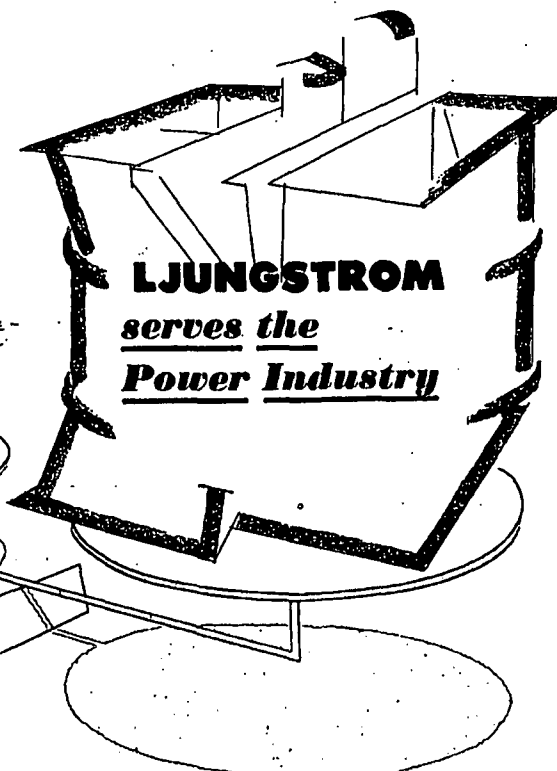

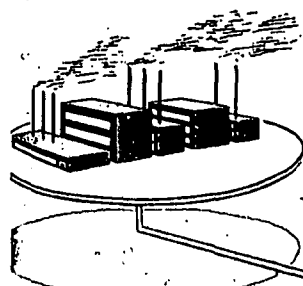

62 Hollow and solid-shaft vertical pump motors described in 4-color bulletin. Cutaways and phantom drawings show details and specific features of motor construction. Bulletin 1554, Louis Atile Co., Milwaukee 7, Wis.

63 Packaged pumping, heating and straining units for fuel oil presented in 8-page, 3-color booklet. Photos, dimensional sketches and assembly and installation drawings included. Bulletin 1231, Behrman & Keating Co., Cornwells Heights, Bucks County, Pa.

64 Control systems for protecting high capacity centrifugal boiler pumps during low load conditions treated in 8-page, 3-color booklet. Full specs for each control system and its components. Bulletin 5-53, Republic Fire Control Co., 2510 Diversy Pkwy., Chicago 47, Ill.

347,000,000

pounds of
steam
per hour...

In the post-war rush to expand power generating facilities, utilities have not lost sight of the need for *operating economy*. Increasingly over these years, the fuel-saving, performance-improving potentials of the Ljungstrom Air Preheater have been realized - until today, nearly two out of every three power boilers are ordered with the specification "Ljungstrom Air Preheater."

Since 1946 alone, in fact, more than 347,000,000 pounds per hour of steam capacity - installed or on order - have been designed for Ljungstrom.

This record speaks for itself. It proves that the Ljungstrom Air Preheater is, indeed, *the most economical heating surface in the modern boiler.*
