# THIS MEMORANDUM

Is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading,

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment.

Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Dear Karl:

It was a pleasure meeting with you and your associates recently. After discussing your request with our management, it was agreed that we would test each particular lot of Olympic Talc with respect to tremolite using slow scanning x-ray diffraction techniques. We would also agree to a specific area electron diffraction on a limited basis, for example, every six months or once a year. The reason for this is based on the high cost of running such a pattern.

In review, our Olympic Talc would deliver in railcars to Indiana at a price of approximately \$0.069/lb (min. 80,000 lbs) and to Jersey City at a price of \$0.075/lb (min. 80,000 lbs).

This material is also available FOB Chicago and Trenton as follows:

|         |             |              |
|---------|-------------|--------------|
| Chicago | 30,000 lbs+ | \$ 0.080/lb. |
| Trenton | 30,000 lbs+ | \$ 0.085/lb. |

I will be recontacting you shortly to discuss the samples I left with you.

Sincerely,

Ronald W. Grexa

Dear Mr. Moebus:

Subject: Colombian Purchase Order COL 36-059-99

On October 3, 1979, Colgate-Palmolive New York placed purchase order COL 36-059-99 with Cyprus Industrial Minerals Company covering 67,500 lbs. of Regal North Carolina Talc. The subject purchase order was placed at \$174.00/ short ton FOB Alpine, Ala., and requested shipping date was December 9, 1979. This was the first purchase order placed with Cyprus Industrial Minerals since Charles Mathieu no longer services the account. No acknowledgement or communications were received from Cyprus Industrial Minerals. In the early part of January, the International Billing Department of Colgate-Palmolive notified me that requested proforma invoices denoting availability of product for shipment had not been received. Upon receipt of this information, the writer contacted Mr. Karl McCleandon and Mr. R. Moebus, and they informed the writer that it was the policy of Cyprus Industrial Minerals to only schedule production of material upon receipt of actual vessel bookings from buyers. Even though this is an unusual mode of business, the writer notified the International Billing Department to provide vessel booking information to Cyprus Industrial Minerals. At no time during this period was any mention of the change in pricing made known to Colgate-Palmolive Company. After shipment of product was made to Colombia, invoice

was received covering the subject shipment with the billing price of \$226.39/short ton

Frank Schebece, Chief Chemist

**OBJECTIVE:** Follow up on classified talc sample sent to Frank for evaluation purposes.

**SUMMARY:** Frank claims that the classified talc is a little better than the Olympic talc that we previously submitted, but they still rejected the material. In the past, the Olympic talc failed after two weeks under the elevated temperature testing of 110° C and 120° C. The classified talc sample failed after four weeks, however, the room temperature sample seems to be okay and that was not the case with the Olympic talc. The next move is up to us, and, frankly, I do not know where to proceed from here other than to possibly remove a little more of the fines from the classified material. RWG will have to discuss with LDM.

**ACTION REQUIRED:** Check back with Colgate after discussing entire situation with LDM.

is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

# THIS MEMORANDUM

is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading,

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment. Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Frank Marshner - Lab Mgr.

in 9/21

OBJECTIVE:

Try to get Frank or Carl Shumway to our dinner party in Washington at the CTFA.

SUMMARY:

Neither gentleman are going to Washington but I did set up a luncheon date with Frank and Carl when LDM is in the east. There won't be too much to report on the Olympic talc situation as it is still being evaluated but I wanted LDM to meet the key personnel here.

ACTION REQUIRED:

Meet with Carl Shumway and Frank Marshner in early September.

is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading,

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Mexico Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment.

is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading.

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment. Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

# THIS MEMORANDUM

is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading.

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment. Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

OBJECTIVE:

Discuss Olympic talc situation.

SUMMARY:

The Olympic talc has passed all analytical and biological testing as well as physical testing. They are at the point now where a panel test will be conducted by Gill Leigh. This is the final say in whether Colgate approves our material. Right now, it looks from here as though they will, because they are having quite a few problems with their present source with respect asbestos. Frank admitted as they have been sending out samples to McCrone in Chicago for TEM and LDM and I both know this is very expensive. They have found suspect asbestos minerals in the talc on occasion and this is very upsetting to Colgate. As per our discussion with HTM during my last visit, Colgate would be willing to pay an additional fee for having us run a TEM on a regular basis. However, this can be discussed in the future. Frank would like present pricing on Olympic talc and RWG is to submit a letter indicating 1976-77 prices. Things are looking good here and the target date for approval is Jan 1, 1977.

ACTION REQUIRED:

Send appropriate letter with copy to NY purchasing and follow up.

Frank Marshner - Gp. Leader

*RM 11/23*

OBJECTIVE:

Discuss Olympic talc.

SUMMARY:

Frank confirmed what Karl Shumway told me earlier, that Olympic has been approved. However, Frank has been asked by Joe Simko, the head of the analytical dept. if it were possible to have an optical micrograph included with the other analytical work we will be doing on the Olympic for Colgate. Told Frank I would discuss with LDM and probably have LDM call Joe Simko directly. Frank claims that the fragrance testing should be done the end of November or early December and that a meeting should be set up after that time. I asked Frank to give me a call when he was ready to set up that meeting.

*Phase contract.  
det. 17 samples  
in bulk sample  
5 hrs at \$30/hr.  
150*

ACTION REQUIRED:

Wait for Frank's call and contact LDM and discuss situation additional analytical work for Olympic talc.

RWG/kah

*② RWG PAC 12-13-76*

- ① Only reason for low writing phase contract is because it is cheaper than XRD & other methods*
- ② If they want XRD, SEM, TEM/SAED & also optical, then the charge to do the extra optical is approx 5 hrs at \$30/hr or \$150 per sample. This translates to an extra \$2 1/2 /ton (60 ton cars). Now - do they still want this?*

ATTENTION: IRREGULARITY

OBJECTIVE:**Irregularity**

Visit Colgate to confirm rejection of two truckloads of Monoblend Talc for being light in bulk density.

SUMMARY:

Colgate agreed to take the remaining two truckloads of Monoblend from S. Plainfield at a special price. Lot 812065 was shipped in both cases against invoice numbers 18989 and 18990 on 10/26 and 10/28. Colgate found the first shipment to be 0.69 and the second 0.71. RWG and JBC confirmed these results and obtained samples. The customer's spec is 0.72-0.92 and both shipments were borderline. The Beacon material is running 0.8-0.9 and a sample of recent production was obtained. A final decision on returning the loads was postponed until a trial on their filling equipment could be made.

DETAILS:

It appears that Colgate is splitting hairs with these rejections. In the old days, Colgate would blend the light density talc with heavier density talc and solve the problem. Now, George Baechtle (Mfg. Supv.) has stated it can't be done but will try some after the powder run is complete using the Beacon material.

Carl Schwarz also mentioned that we no longer will be able to sell a 96%/200 mesh talc to Colgate now that they have found the Beacon material which meets this CTEA spec.

RWG and DRF will try to get Colgate to keep the last two truckloads of lot 812065 Monoblend which had been shipped to Colgate earlier this year with density values of 0.77 and 0.78.

ACTION:

Prepare IRR. Prepare Lab Work Requests. DRF/RWG to follow-up to make sure Colgate keeps the suspect material.

is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading,

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment. Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

# THIS MEMORANDUM

is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading.

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment.

Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading.

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Freight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment. Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

# THIS MEMORANDUM

is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading.

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Freight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment. Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Jerry McAdams - Coordinator

OBJECTIVE:

Follow up on basis of RWG's call report advising Olympic talc had been approved for use in this plant.

SUMMARY:

No talc production is planned for 1977 in Colgate's Jeffersonville plant.

DETAILS:

Mr. McAdams replaces Gene Bricker who will retire December 31, 1976. Jerry advised they brought in thier last shipment of talc from Charles Mathew, the week of December 13. Present plans are to dissemble the talc packaging equipment in the Jeffersonville plant and use this space for other purposes. Apparently all of their talc packaging will now be done in Jersey City.

ACTION:

A letter has been sent to Jerry McAdams advising him how to contact us in the event Colgate's plans are changed and they may wish to order from us.

I will recontact him on the phone in approximately 6 months, unless I hear otherwise from Ron via call reports or note.

# THIS MEMORANDUM

is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading,

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classification in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment.

Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading.

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

# THIS MEMORANDUM

is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading.

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, contained, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment.

Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

OBJECTIVE:

Introduce our Olympic talc.

SUMMARY:

Presently using WCD Alpine talc at both their Jeffersonville, Indiana and Jersey City, NJ plants. Margaret estimates usage at approximately 1,000/tons per year and this figure is much lower than what MDH came up with at Jeffersonville. Buying carloads in Jersey City and storing it in a local warehouse and taking it out when necessary. Buying direct truckloads from Alabama to Jeffersonville, Indiana. Margaret extremely happy with their present supplier but would entertain an alternate source. Our delivered price in carloads of 7½¢/pound or less depending on location is higher than competitive prices but I tend to doubt that this is so based on information from other customers. Margaret requested that I send a 5# sample of Olympic talc to Mr. Carl Shumway at their Piscataway, NJ Research Center with a cover letter. This I will do.

ACTION REQUIRED:

SEnd appropriate ~~WCD~~ sample as well as cover letter and follow up.

OBJECTIVE:

Discuss Olympic talc panel test.

SUMMARY:

Panel test has been completed and the panel split 50/50 on our talc vs competition's. Therefore we have been approved and Carl requested that I call Frank Marshner who is on vacation, later in the week and set up our next meeting which will take place in Piscataway and will include key purchasing personnel. We will probably start getting business here January 1.

ACTION REQUIRED:

Contact Frank Marshner and set meeting and follow up.

# THIS MEMORANDUM

is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading,

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment. Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Margaret Lewis, P.A.

*fm 6/24*

OBJECTIVE:

Determine status of Olympic talc evaluation, if possible, and also introduce HTM.

SUMMARY:

Margaret has not obtained much information from the research center, other than our talc passes bacteriological testing with flying colors. She hopes we will get more information on Friday when we meet with them.

It seems, from Margaret's standpoint, that they have a valued supplier in WC&D and the Alabama talc they have been purchasing. She also gave us the runaround concerning consumer testing of our talc because it's a little bit different and whatever.

HTM impressed on Margaret that we are a very reliable source, the largest talc producer in the world, and would definitely be an asset to their company.

Nothing much more was accomplished here, but hopefully we will get more information on Friday.

ACTION REQUIRED:

Check with the research center on Friday, and if any information is needed by them, be sure to copy Margaret Lewis with any correspondence.

# THIS MEMORANDUM

is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading.

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Freight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment.

Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

# THIS MEMORANDUM

is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading.

It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Freight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment. Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

# THIS MEMORANDUM

is an acknowledgment that a bill of lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading.

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment. Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

REASON FOR ADDITIONAL BILLING OR CREDIT MEMO:

Customer had rejected two T/Ls of Monoblend for low bulk density. We asked Colgate to test run the material in their filling line. They had difficulty and billed us for extra labor as per our agreement. Now that we are selling Colgate again, we should clear.
