Dear all,

Ahead of our meeting on Friday, we would like to share three new papers Cefic has recently developed. The one on essential uses in particular could be useful for our discussion.
Looking forward to the meeting,

With regards,

[REDACTED]

Dear [REDACTED]

25 June is still available for me. Many thanks for accommodating.

Best wishes,

[REDACTED]

Thanks [REDACTED] Yes, we should do that.
According to the Doodle, the next best option is 25 June if it still works for ENV.
Otherwise, we could arrange two separate meetings: one with ENV, one with GROW.

Apologies for the back-and-forth emails.

With regards,

[REDACTED]

Dear [REDACTED]

Seen that [REDACTED], amongst others are not free, shall we consider another date? I also have an emergency that came up, so I would appreciate if we can find another slot for the meeting.

Regards,

[REDACTED]

Subject: RE: horizon scanning meeting: 16 June according to Doodle

Dear [redacted]

From DG ENV, the proposed timing is clearly not optimal, as none of us is free anymore.

two categories: for discussion / for questions. I would think most of the time will be spent on topics listed for discussion.

It is a long list, reflecting the many changes we see coming in the next months:

CLP

[REDACTED]
[REDACTED]
[REDACTED]

[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

REACH

For discussion:

- Essential Uses
- Restriction & Authorisation reform
- Mixtures
- Polymers
- Low volume substances: CSR and carc data

Topics on which we have questions:

- Environmental footprint data under REACH
- Generic restrictions scope and Roadmap to prioritise substances for REACH restrictions
- OSOA state of play
- Better recognition of alternatives to animal testing in data requirements (JRC – ECHA study)
- Export ban (under the global pillar)
- Ecodesign and REACH (interplay / streamlining)

Have a good week-end.

With regards,

[REDACTED]

Dear [REDACTED] and all,

I agree with [REDACTED], if [REDACTED] could send a draft agenda, then I/we can see the availabilities of the relevant colleagues.

Best regards

101

[illegible]

Subject: RE: horizon scanning meeting?

Thanks [REDACTED]. Good initiative.

But I agree with [REDACTED] on the planning. It is very difficult to find a slot that suits all of us, and the question whose presence is most relevant will also depend on the agenda, your priorities.

For now, and assuming that the REACH revision is the most relevant part for GROW F1, our best availabilities are on 16/6 and 5/7.

Best regards,

Subject: RE: horizon scanning meeting?

- 16 June, 10:00-12:00 NO
- 25 June, 15:00-17:00 YES
- 30 June, 14:00-16:00 YES but depends on Caracal

With many regulatory changes, studies, consultations ahead of us and with the speed of new developments, we feel it is important we keep track of the Commission's work so that we can prepare industry's contributions to your different initiatives and inform our members in a timely manner. This is part of our support to the implementation of the Chemicals Strategy for Sustainability.

Therefore, I am contacting you to offer a meeting with our respective teams, to review progress and exchange views on key topics from the Strategy. For this meeting, we could focus on REACH and CLP (it's likely we will need to select specific topics). We have had such exchanges in the past (prior to the Strategy) and found it useful.

Since we would do this online, it would be good to involve team members. Indeed, topics are increasingly inter-connected and from the Cefic perspective, I feel it is important that everyone keeps track of the developments.

We would probably need 1.5 to 2 hours, ideally before the summer break, if possible.

Should you think this would be useful, we can work on a list of REACH and CLP topics.

Thank you for considering. We look forward to your feedback or alternative proposals.

N.B. I am probably missing some people in the distribution list, please forward to who it may concern.

Best regards,
