Shutdown Safety - cont'd.

5. Safety will be emphasized.
6. Special emphasis will be given to securing cylinders.
7. Craftsmen will be given time to clean up at the end of each day.
8. Laborers will be scheduled to clean up during the shutdown.

Drug & Alcohol Abuse

Due to TCR giving contractors a urine test to check for drugs, Monsanto is probably getting a higher percentage of drug using contractors. Initially 50% of TCR's contractors failed the test.

Contractor Safety

The script for the 5-minute safety film was reviewed and suggested corrections made.

EPP Drill

The proposed date for the EPP drill is sometime during the week of November 14. Details for the drill were worked out at this meeting.
