SUBJ: OSHA CONTRACTOR PHONE SURVEY REGARDING MEDICAL SURVEILLANCE
AND IH MONITORING

VISTA

Three plants, Aberdeen, LCCP and Hammond have received the attached request to participate in the subject survey. The history to this is that OSHA published a request for comments on the need for a generic monitoring and generic medical surveillance standard some 18 months ago. This survey is OSHA's continuing attempt to gather information regarding the need for these standards.

I would recommend we participate in the survey. Following are items to consider if you choose to participate.

1. The plant should call KCA or the OSHA contact Jennifer Simmons (202-523-7177) to arrange for an interview time. This will avoid phone tag and allow us to have the appropriate people available at our convenience.
2. I think Dr. Drumwright should be the contact for the medical questions. I'll contact him and assure he's in agreement. If you have a different opinion, please let me know.
