

1           A     The swing room is a room where -- it is like  
2     a cafeteria. We have machines back there where the  
3     guys that were working had lunch.

4                     Right next to the swing room was the locker  
5     room where you had your locker, where you changed  
6     clothes if you needed to change.

7           Q     And at Oliver Street, did you continue to  
8     have the old vehicles, the old Fords that you talked  
9     about, the 1929s, the 1930s, or did you have new  
10    ones?

11          A     No. During that -- after that time, they  
12    started purchasing the newer vehicles. Most of the  
13    Fords, the old Fords, the '29 and so forth were the  
14    first ones to go. We got a whole new fleet.

15          Q     And it is probably about time.

16                     So at Oliver Street were the Fords there new  
17    Ford vehicles?

18          A     I don't think we had any Fords there at the  
19    time. We had other brands.

20          Q     Were the Fords that were there, were they  
21    new vehicles?
