

1 A A residency is a specialized training
2 program. This program in my case was at the
3 University of Colorado.

4 It was a four-year program where I worked
5 under supervision of pathologists who were practicing
6 at the university there.

7 Q And in what fields of medicine was your
8 residency?

9 A In pathology, anatomical pathology and
10 clinical pathology.

11 Q Now, after you finished that further
12 specialized training, did you do or did you have any
13 further training as a physician?

14 A Yes, sir. After I left the University of
15 Colorado, I went to the National Cancer Institute in
16 Bethesda and I had a three-year fellowship and that
17 was basically special training for research, and there
18 was, in addition to my research, I did weekly reviews
19 of pathology.

20 Q What is a fellowship?

21 A Fellowship, it sounds like it makes people
