

September 20, 1962

Mr. George D. Hooper
Product Engineering
General Electric Company
Edmore, Michigan

Dear Mr. Hooper:

Having returned to my desk some days ago, I am able to look ahead and to deal with other matters than those which have had to have immediate attention. Unfortunately the remainder of September is filled with unavoidable duties and engagements, and the first week in October is in a similar state. However, October 9th and 10th are free, although I must get to Baton Rouge, Louisiana, on the night of the 10th (or the early morning of the 11th). It would be more convenient for me, if it meets with your wishes, to visit you sometime in the week of October 14th. I have decided that I simply cannot take the time to attend the meeting of the American Public Health Association in Miami, Florida (although I am expected to do so), and this leaves me free of engagements on that week, except for Monday and Saturday mornings.

If you will specify a suitable date within the limits indicated above, I shall arrange to comply with your wishes.

Very truly yours,

Robert A. Kehoe, M. D.

P.S. It would simplify matters if you could suggest the best and most convenient means of getting to Edmore.
