

Betty

Although asbestos has been proven an economically useful material which can be and is being used safely, congressional, media and regulatory forces being brought to bear raise serious questions as to the viability of the industry.

Your attendance at a meeting of chief officers of asbestos producing and manufacturing companies is requested Tuesday, May 22, at 4:00 p.m., at the Johns-Manville offices, 1025 Connecticut Avenue, Washington, D.C. The meeting will be followed by a dinner for those able to stay. Please advise John Autry at 202-785-4940 as to your attendance.

John A. McKinney
Chairman and Chief
Executive Officer
