Subject: Occupational Health Film on Lead

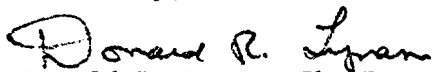

Dear Dr. Kehoe:

Sometime ago Dr. J. F. Cole contacted you regarding the possibility of your participating in a film on occupational lead exposure. We appreciate very much your willingness to participate in this film which is being sponsored by the Lead Industries Association and produced by Westminster Films of Toronto. Enclosed for your information is a brief synopsis of the film which was put together by Mr. Keith Harley, executive producer of Westminster Films. Mr. Harley will be contacting you very shortly with regard to setting up a meeting. He is also in the process of preparing a script which may provide some assistance as you prepare your comments. Mr. Harley will be in contact with you very shortly with regard to the film.

In addition to you, Dr. Emil Pfitzer and Dr. Herbert Stokinger have expressed their willingness to comment on occupational health related to lead exposures.

Best personal regards to you and Mrs. Kehoe. I certainly enjoyed having the opportunity of visiting you and Mrs. Kehoe with Pat and Ann Barry during the recent Kettering Alumni Meeting.

Sincerely,

Donald R. Lynam, Ph. D.
Assistant Director, Environmental Health
