Ryan:

Congratulations on the recent announcement on membership on key advisory committees.

The bias criteria are important and will help to ensure that more objective guidance be offered to the

country.

I do have a specific suggestion that we should discuss. If you have a "free" moment this week, please call me at work at [Ex. 6 - Personal Privacy], you could also call me at home at [Ex. 6 - Personal Privacy] during weekday evenings or anytime over the weekend.

Ed
