

1 Q This wasn't one of the garages where they
2 told you to go away then?

3 A No, the city was cooperative.

4 Q Okay. So you measured blowing off.

5 Exactly how many samples did you take,
6 Doctor?

7 A This is just a one-day study, and we
8 collected apparently a total of eight samples.

9 Q Okay. And did you collect those samples
10 personally yourself or can you tell?

11 A I am sure I did. I just don't recall
12 handling each one.

13 Q Sure. That is fair enough.

14 The blowing off, is that the process that we
15 saw on the videotape?

16 A Yes.

17 Q Okay. Now, I think you testified on direct
18 examination that in order to get a visible cloud of
19 dust, you would need somewhere in the range of 15 to
20 20 million particles per cubic foot; is that right --

21 A Of total --
