

1 was so shut down by the opacification and the tumor
2 running, that he couldn't breathe with the fluids
3 through his lung.

4 THE LAW CLERK: Five minutes, counsel.

5 MR. IGNATOWSKI: MS Contin, chest wall pain,
6 mesothelioma, shortness of breath, increasing
7 shortness of breath, and chest tightness.

8 There is also reference in the records, and
9 you heard Dr. Rubin and Dr. Hammar talk about this,
10 Mr. Grewe had some rib involvement, metastasis to his
11 ribs and now the mesothelioma was driving into that
12 parietal chest wall and starting to destroy those
13 ribs.

14 June of '93, he needs assistance bathing,
15 56-year-old man. You talk about dignity, and you
16 heard Ms. Hines talk about that.

17 Dressing, eating, grooming, these are basic,
18 normal every day functions that we all so commonly do
19 because we don't have a limit.

20 Mr. Grewe couldn't do it for himself
21 anymore. He is 56 years old. You recall his wife
