Are you equipped to hold your job?—to get a new one?

The men who are keeping their jobs today—who are not feeling the whip of competition—are those who have kept one jump ahead of their jobs. They are the men who are equipped with a thorough-going and growing knowledge of the business they are in.

It works in the power plant field as well as in any other. Some men fit themselves to do a little more than their job calls for. They fit themselves to do a little more than the other fellow. They make a steady effort to equip themselves with the best kind of job insurance there is—KNOWLEDGE.

How about you? Do you know how quickly knowledge will pile up—how quickly you will become more valuable—if you spend a few minutes a day, regularly studying sound books like the McGraw-Hill Library of Power Plant Practice? Do you know how easily it can be managed, paying only a few cents a day, while you use the books?

Thousands of men have followed this plan to win advancement or to make their jobs safe. You can too. Read about this library and our Free Examination Offer. Then send the attached coupon to us today.

POWER PLANT PRACTICE

(8 volumes—2,477 pages, 2,404 illustrations)

The Library of Power Plant Practice is the standard of the power plant field. It is accurate—it is thorough—it is complete. It is the result of years of experience with power plant problems. The man who has it has the best. The Library covers the whole field—nothing is omitted. The solution of every problem is plainly worded or explained with a clear illustration. The little sticklers and the troublemakers are all worked out in advance for you. There can be only one result from studying these books a few minutes each day—more money in your pocket.

No books dealing with the work of the power plant man were ever so complete—so authoritative—so practical in text and illustrations as these. The man who puts this set of books into his library can do so knowing that he has the utmost in power plant books—a set that will give him in language he can understand, all the information he needs in order to get ahead in his work.

Easy to Understand

These books are written in everyday easy-to-understand language. They are written to help the man on the job. It is just as if the author were working in the plant by your side and giving you the benefit of his vast knowledge, man to man. There is no bunkum in this library, nor is it cluttered up with impractical theories. It is a Power Plant Library FOR POWER PLANT MEN. Glance at the titles of the books in the photograph. They will give you an idea of how completely this library covers Power Plant Practice. Here you have all the information necessary to make you indispensable on the job.

See it 10 days—Send no money

Fill in and mail the coupon below and we will send you the six volumes of the Power Plant Library for 10 days' examination. If you decide to keep the books after examining them, just send \$1.00 and then \$1.00 a month until the total low price of \$12.00 has been paid. See the coupon below for details. Send it NOW and HOLD THAT JOB!

McGraw-Hill

How to Have a VERY Clean Atmosphere Economically

Where it's important to do a thorough air cleaning job, Clarage Capillary Air Washers are second to none, when you consider ease of installation, low operating cost, and low maintenance. They take the place of conventional spray type washers plus filters. Each Capillary cleaning cell has 57,000 glass filaments—the air cleans and pure when it comes through! Clarage Capillary Unit Conditioners are also available—cleaning, temperature and humidity control all in one unit. Both of these excellent products are built in a wide range of capacity sizes.
