

New Red Top[®]

acoustical spray texture

Absorbs Sound— Even over Drywall!

Spray on a coat of "quiet elegance" with new RED TOP[®] Acoustical Texture—a unique sound-rated texture for finishing interior gypsum panels, concrete, plaster ceilings and non-contact walls. Retrofit or new construction, this innovative product cuts surface preparation—covers minor imperfections in one, fast, fire-resistant application. Goes on easily, too, to create a coating up to a half-inch thick with that sought-after textured look. Call in your U.S. Gypsum representative for specifics. ■ Or write to us at 101 S. Wacker Dr., Chicago, IL 60606-4385, Dept.
