

THE STATE BOARD OF HEALTH
OF MISSOURI
CITY OF JEFFERSON

ADDRESS ALL COMMUNICATIONS
TO THE STATE BOARD OF HEALTH

May 2, 1937

Kettering Laboratory
of Applied Physiology
University of Cincinnati
Cincinnati, Ohio

Gentlemen:

I have a reference to the effect that you are interested in the accumulative effect of small doses of arsenic and lead in such materials as spray residues, and I shall be grateful for any reprints of articles you have published on this subject.

I shall be grateful for any references you can give me to the literature in regard to the injurious effect of spray residues on the consumer.

Very truly yours

C F Adams, M D
Director of Laboratories
