Lancaster, Pa. 17604.

Dear Sir:

In order to keep you informed of the steps being taken by the industry and the Institute of Occupational and Environmental Health sponsored by the Quebec Asbestos Mining Association, in regard to the biological effects of asbestos exposure on humans, we are enclosing the following literature:

The Minutes of the first six meetings of the Scientific Committee of the Institute of Occupational and Environmental Health.

In the following weeks, you will receive further information on the subject, mainly in the form of medical papers published in journals and other articles of related interest.

We hope that, in this manner, it will be easier for you to keep your people acquainted with this problem.

Sincerely,

Kenneth J. ...

Chairman of the Executive Committee
Institute of Occupational & Environmental Health
