It is our aim to design homes that are better, more attractive, well built and arranged, which will create pleasant surroundings, give an atmosphere of prosperity and thus improve and benefit our community.

GOOD PLANS are the most vital item in your home building program.

Any expenditure for home is a dividend paying investment, not an expense—dividends of satisfaction and economy as long as the house is your home, and dividends of larger returns should you ever wish to rent or sell.

If you are contemplating building a new home, and want it "built right," we can help you; we will develop your plans, details and specifications at very moderate price, thus assuring you of the home you have dreamed of.

## Add sales value to your house

IT will sell quicker, and bring you a better price, if you dress it up a bit; or, if you're not selling, it will be worth more to *you!* For instance, a gleaming coat of white on the siding, with red roof and leaf-green shutters—you'll be surprised at the difference. You can call more, and get more!

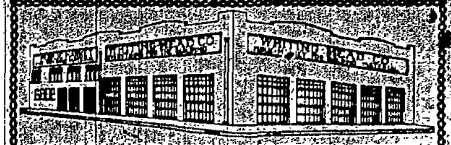

Any time you wish, we'll be more than glad to help you select just what paints and varnishes you need for any decorating problem. We want you to be satisfied; that is why we back our judgment with du Pont Paint—it's *master-made!*

## CIRCUSES DRAW DAKOTA INDIANS

Associated Press Staff Correspondent

PINE RIDGE AGENCY, S. D., May 5.—The circus and the carnivals are on the road again and officials of reservations are making their annual efforts to keep their wards from flocking to join the caravans which, they say, are a curse to Indians.

Every spring, circus and carnivals send scouts out here to quiet Indians for recruits and wild west shows send for several. Sometimes they make a dozen pretexts to depart from the reservation, but often their pleas are ineffective. The Indian, migratory by nature, is easily lured from his little farm. His guardians have no objection to his departure if it is permanent employment somewhere, but if they have found that when he "says he'll be back in the spring" he rarely returns, they have no objection to his departure.

Several years ago, when he was a boy, he came home and threw himself back on the beneficence of the reservation, getting to reclaim his land.

## Why Do We Advertise Cyclone Fence?

If a fence were only a fence, there wouldn't be much point in it. But there is as much difference in fences as in radios or motor cars. The standard of fences happens to be Cyclone Fence, so that's why we spend so much good money telling you about it.
