

FILE NAME: Mead (MEAD)

DATE: 1971 Jan 25

DOC#: MEAD049

DOCUMENT DESCRIPTION: Memo

Jan 25, 1971

From: ~~S. M. W. W. W.~~ S. M. W. W. W.
To: W. R. Bond

Our policy on keeping the lungs of employees at Rayland has been to keep each individual prior to employment, then in 1969 we tested all employees with negative results. We plan to test again during 1971 in cooperation with National account, if this again proves negative we will plan in another two years to test again.

We are installing equipment don't collect equipment for the testing line at Rayland. We have not at present taken don't counts. This was discussed with Stan Mooney after a visual inspection turned out to be with all until some future date.

S. M. W. W. W.
