

Notes on 1305th Meeting
BOARD OF OPERATORS
July 3, 1944

Item 13272 - INSECTICIDES

Messrs. Mills and Gunderson to work out any changes necessary in production schedules on Arsenate of Lead and Calcium. Arsenate of Lead production not to be continued beyond July 10th unless we have definite commitments that must be filled. ✓

Item 13274 - MATERIAL FOR BURNING OUT CHIMNEYS

It is thought that we have some material especially good for this purpose. Mr. Coolidge is to investigate and report on the advisability of packaging it for sale by our stores. ✓

Item 13277 - RAW MATERIALS

Lithopone

Zinc Sulfate - Under present Kem-Tone schedule, Institution will need at least 200 tons per month from outside purchases. 200,000 gallon Kem-Tone schedule will require at least 400 tons per month from outside sources. ✓

Item 13279 - KEM-TONE

Mr. Rinkoski will have West Coast orders in Chicago to be filled not later than the first week in August. ✓

GENERAL - (Not previously mentioned in Board Meeting)

Printing Contracts for Army and Navy and other Government Departments

Believe you wish to discuss U. S. Navy Aviation Supply Office contract, N-288-S-10389, for 10,000 color books. Contract taken in 1942 - estimated cost, \$4,000 - actually cost \$7,600. ✓

State award certificate: Mr. Lemperly to report recommendations for this. ✓
