5. AOB			

GESLOTEN SESSIE BCR - starts at 13h30 with AP 3.2

AGENDA ITEM			
AGENDA ITEM		DOCS/ SUBJECT	PROCEDURE
1. Approbation de l'agenda	1.1	Agenda 07/12/2021	FOR DECISION
2. Approbation du compte rendu	2.1	Draft PV du 30/09/2021 – closed + confid. open BCR (FOR DECISION Will be send before the next meeting with 2weeks validations if no	

		comments validated otherwise formal procedure during the meeting.	
3. Informatie / Consultaties			
	3.1	Background paper workshop auth/restr. Slovenia	For consultation/for info
	3.2	Enforceability AfA decisions For consultation/for info + linked to decisions under 4.2.4 Presentation > There is a new procedure in the R committee > drafts only discussed once if possible & shortened delays for reaction/commenting/..., especially after the meeting. Rain cabon Belgium Zelzate ? VL input?? (left the meeting). Proposal of stopping the current written procedure because we didn't receive any explanation on the last changes of COM in the proposal. ➤ Will be discussed with COM and VL.	
	3.3	Restriction Lead in PVC : Debriefing of Discussions at REACH Cee (7/12/ AM) and elements for BE position (Ref to written consultation).	

		Commenting the morning presentation= -controlled loop vs closed loop. -If we have to give a upper level for the recycled materials > time limited + labelled+no supplementary exposure (Workers,consumers,env)+full tracability of the materials (pipe to pipe) - Labelling (contains recycled PVC or lead, ...) They prefer no labelling (SCIP will do the work) All PVC > construction and consider that there is a lead contend They collect from the source Labelling 'without lead' on a voluntary basis . ><Against free labels Value or % 2% of lead in PVC Building limites: pipes+windows frames , etc. Decontamination= q Time limite proposed was 10y in stead of 15y . With a revision close. 10 or 15y Decontamination n lab level > the investments should be there > Virgin will be less expensive > time for the retur on investment . Avoid landfilling but also investments should be economically viable. Ok Post Consumer PVC > from EU and how check the waste streams > non EU wastes and the lead there.
--	--	---

		We are not in a position to prevent no EU waste. Certification scheme for imported PVC containing lead. Find a way that all the PVC containing lead should be recycled (if not from a frame > will be a frame) pipe to frame ? possible ?? Other profiles/ auxiliary profiles to windows and door frames –(constructions parts?, Other ok but a clear labelling and way to sort > a short list !	
	3.4	Restriction on creosote (renewal process before review dossier by FR): Debriefing of Discussions at REACH Cee (7/12/ AM) (Ref to written consultation:	For info / consult
	3.5	Formatted CCIEP PFAS July 2021 report – distribution to the VL PFAS working group and update on the renewed CCIEP PFAS mandate. VL expert group (June 2021) to complement their own report . the PFAS report is under the GDPC network for the formal approval of the diffusion(VL authorities + scientifics /no industries) New PFAS mandate – approved by the ccim BUREAU ;	For consultation/for info

	3.6	Discussion – followup > open session	For info
	3.7	Belgium MNI – ECHA request	For info / consult.
4. Beslissingen			
4.1. FOR DECISION			
	4.1.1		For Decision
	4.1.2		
	4.1.3		
4.2. FOR DECISION (BCR WRITTEN PROCEDURE) : FOR ENDORSEMENT			
	4.2.1	REACH Committee= vote on the change of annexes of REACH	Endorsement of the written procedure
	4.2.2	REACH Committee = Annex XIV of REACH (A- XIV)	Endorsement of the written procedure
