SUBJ: VCM, ORGANIC PEROXIDE SHIPMENTS

VISTA

In order to assure the proper documentation and labeling of the product shipments from OKC to Ponca City and the return of the truck to OKC, I have enclosed sample Bills of Lading for those shipments. Comments are below.

1. Both products are shipped in connection with a DOT exemption or special approval. 49 CFR 172.203(a) requires such shipments to clearly show the exemption numbers. As you are aware, copies of the exemption and special approval must accompany each shipment.
2. If reasonable we should show the estimated quantity of VCM as well as the "bulk" designation.
3. Shipping papers must also be completed for the return of the trailer when empty. The "Empty: Last Contained" notation is added to the basic description.
4. The inside containers of organic peroxide must be properly labeled. The ice chest must be marked according to 49 CFR 173.312 (attached) which includes arrows and "This End Up" notations.
5. For now the Bills of Lading should be kept for a period of time which is not yet determined. We are working on a VISTA records retention policy which will determine the exact time. It will probably be three years.
6. For private carrier shipments such as this, no shipper certification signature is required.

Please call if you have question on the above.

(5) ORM-D-AIR for an ORM-D that is prepared for air shipment and packaged in accordance with the provisions of § 173.6 of this subchapter.

(6) ORM-D for an ORM-D other than that described in paragraph (a)(5) of this section.

(7) ORM-E for an ORM-E.

(b) When the ORM-D marking including the proper shipping name can not be affixed on the package surface, it may be on an attached tag.

(c) The marking ORM-A, B, C, D, or E is the certification by the person of-

fering the package for transportation that the material is properly described, classed, packaged, marked and labeled (when appropriate) and in proper condition for transportation according to the applicable regulations of this subchapter. This form of certification does not preclude the requirement for a certificate on a shipping paper when required by Subpart C of this Part.
