

FILE NAME: Saranac (SAR)

DATE: 1950 Sept 6

DOC#: SAR221

DOCUMENT DESCRIPTION: Letter to Dr. Vorwald from J.P. Woodard

September 6, 1930

Mrs. A. E. Elms, Executive Secretary to
Mr. A. J. Vorwald, Director
The Bureau Laboratory
Sarnia Lake, New York

Dear Mrs. Elms:

NOTED
V. B. 7

Your letter of August 21 came today after I had sent mine of
September 1 asking about the manuscript of the paper on the asbestos
condition.

We are all much pleased that this paper is not in the hands
of the publisher and I am sure that the other companies will also be
delighted at this news.

In addition to the fifteen copies which you are sending to us
here, would you kindly send seven copies to

Mr. G. E. Foster
Canadian Johns-Manville Co., Ltd.
1255 Phillips Square Building
Montreal, Quebec, Canada

This will permit Mr. Foster to give this information to the
other members of the C. A. M. A.

It would be well, too, in addition to sending a copy to Mr. E. E.
Smith at Asbestos, if you would send one to Mr. G. E. Foster, also at Asbestos.

We'll see that those sent here are passed out to the companies
that originally underwrote the program.

With very best wishes to you,

Sincerely,

J. P. Steward
