Operation

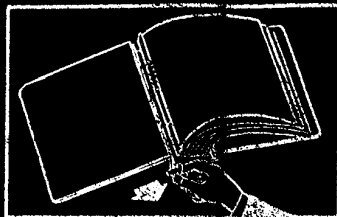

1. Closing Position

Close top and bottom covers outward which permits leads to lie flat for reference and ease of turning.

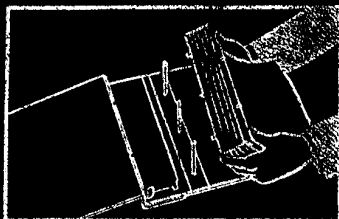

2. Opening Position

From all sheets on right side, pull out slide bar to unlock binder.

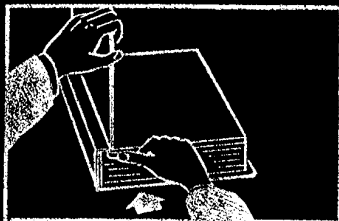

3. Sheet Change Position

Lift film in onto transfer bar at desired opening, add or remove sheet and release transfer bar.

4. Closing Position

Close top cover into position on transfer bar slide, —push in slide bar to lock binder.
