Eden and Bethesda Avenues
Cincinnati, Ohio

Dear Dr. Kehoe:

We are currently gathering information for our Index to Air Pollution Research - 1966. This is a guide to what research is being done, by whom, and where. The Index will provide the means for a greater and more rapid exchange of knowledge and ideas between personnel working in the same area. We use the computer program Keyword-in-Context (KWIC) to produce this publication quickly and at a low cost.

Your cooperation is needed in order to make this year's Index as complete and useful as possible, and to do so on a low cost. We have obtained a copy of the Notice of Research Project for your study from the Science Information Exchange Service of the Smithsonian Institute. We would like to use the title, name(s) of principal investigator(s), location and sponsoring agency information from this sheet in our Index. To save time and effort for everyone, we will assume that we may use this information unless we hear from you to the contrary before April 4.

According to present plans we hope to have the Index available, at cost, about May 1. Your cooperation in making this publication more complete and useful is appreciated.

Sincerely yours,

(Mrs.) Toni Medlin
Administrative Assistant
to the Director
