

THE SHERWIN-WILLIAMS ENAMEL PAINT

For enameling bedsteads, chairs, tables, dressers, wood and iron furniture, desks, settees, etc.

It is impossible to make an enamel paint that will wear longer or that's more easily applied. It doesn't pull hard when applying and can be put on by anyone. It dries with a hard, high gloss enamel finish that is easily kept clean.

There is no comparison between it and the many cheap mixtures that are sold under the name of enamel paint.

Insist on getting *The Sherwin-Williams Enamel Paint*, and you will get the best always.

Made in fourteen handsome shades. Put up in convenient sized tins, always full measure.
