Emne: Norwegian comments on CACS/46/2018 - PFAS paper

Dear colleagues

Please see the enclosed comments from Norway on the Caracal-28 document CACS/46/2018 - Poly- and perfluorinated substances (PFASs) – current and planned activities.

Enclosed are also:

1. An updated version of Norwegian risk reduction approaches on PFASs, soon to be published by the Global PFC group.
2. A report prepared by DNV GL on behalf of the Norwegian Maritime Authority, submitted to the International Maritime Organization (IMO) in 2018, assessing the use of PFOS and other surfactants in fire-fighting foam onboard ships.

Kind regards

Marianne Tvermyr
