Mr. G. M. Halsey, Vice President
The Glidden Co.
900 Union Commerce Bldg.
Cleveland, Ohio

Dear Mr. Halsey:

At the request of Mr. S. B. Coolidge, Jr., we are shipping today by parcel post twelve samples of Permolith Lithopone representing the twelve different grades manufactured at Coffeyville.

The codes or identification numbers and the corresponding grade characteristics are as follows:

Permolith 20L	Regular Grade General Purpose	Low Consistency
Permolith 40H	" " " "	Medium Consistency
Permolith 60H	" " " "	High Consistency
Permolith 10N	Non-Reactive Grade	Low Consistency
Permolith 60N	" " " "	High Consistency
Permolith 60J	Hydrophobic Grade	High Consistency
Permolith W320	High Dry Hiding	Medium Consistency
Permolith W660	High Dry Hiding	High Consistency
Permolith W421	High Water Dispersible	Low Consistency
Permolith W461	" " " "	Medium Consistency
Permolith W560	Medium Water Dispersible	High Consistency
Permolith W661	High Water Dispersible	High Consistency

I trust the samples will arrive in good order. If by any chance they do not, please advise and we will forward duplicates.

Yours very truly,

GFW:d

G. F. Wyman
General Superintendent
