VISTA

August 5, 1991

Ms. Susan B. Hazen
Director, Special Projects Office
Mail Code TS-792A
USEPA
Washington, D. C. 20460

Dear Susan:

The purpose of this letter is to outline Vista's quantitative reduction goals for the 33/50 Industrial Toxics Project.

Vista reports emissions of 8 of the 17 chemical's listed for inclusion in the program. Vista will achieve a 33% reduction in reported emissions for those substances by 1992 and a 50% reduction by 1995.

These emission reductions will be the result of a combination of techniques. These include source reduction, recycling, treatment; and increasing the accuracy of our emission estimate calculations.

Sincerely,

Thomas G. Grumbles, C.I.H.
Manager Environmental Affairs
