

TO	R. N. Rylands, Plt. Mgr.	FIELD POINT OR ARRON DEPARTMENT & BUILDING NO.	DATE YOUR LETTER
FROM	B. M. G. Zwicker	Avon Lake General Chemical Plant	DATE THIS LETTER
SUBJECT		Cleveland Office	April 2, 1974

Bob:-

This refers to your memo to Dr. Johnson of March 26 concerning H₁₂ MDI!

I would suggest that even before Dr. Johnson has an opportunity to respond, you should be making every effort to comply with the du Pont recommendations on use of Hylene W.

If your people are still complaining about exposure symptoms, we must assume we have a problem and should call in the local du Pont representative for consultation.
