

November 6, 1968

George F. Kirby, Ph.D.
Ethyl Corporation
P.O. Box 1466
Baton Rouge, La. 70821

Dear George:

I enclose herewith the letter of which I spoke in the course of our last telephonic conversation. This letter was written to me and others of the Committee by Les Chambers, Chairman of the Program Area Committee on Air Pollution of the American Public Health Association, of which Committee I am a member. It was drafted subject of the approval or modifications of members of the Committee. I approved of it without reservation, but it could not be sent because other members would not so approve. (Our Committee is a thoroughly mixed up collection group.) The letter, therefore, is for your own private information. I believe Dr. Chambers has done a good job of expressing appropriate policy, but I have little hope that such policy will prevail unless the counsel of your committee can prevail.

Sincerely,

Robert A. Kehoe, M.D.
Professor Emeritus of
Occupational Medicine

RAK:wp

P.S. I will make every effort to arrange a suitable time with you for our talk.
