Dear Ollie:

I take this means of expressing my pleasure over the decision which has been arrived at to discontinue the use of special fuels made available by track-side mixing of special blends at races. I am sure it will be no surprise to you that I approve of this heartily, but I want also to extend my congratulations to whomever may be responsible for the exercise of this good judgment. One realizes that there was a time when this sort of performance may have been necessary. I am certainly glad that it has been decided that there is no such further necessity. I should appreciate it if you would express my feelings on this subject to anyone whom may have aided in arriving at this decision.

Sincerely yours,

Robert A. Kehoe, M. D.
