

Annual Report 1953

THE SHERWIN-WILLIAMS Co.

N 15361

THE SHERWIN-WILLIAMS Co.

A. W. STEUDEL

PRESIDENT

To the Stockholders:

Herewith are presented the Consolidated Balance Sheet and the Consolidated Income and Surplus Statements of The Sherwin-Williams Company for the fiscal year ended August 31, 1953.

The earnings before Federal Income Tax and provision for the Pension Plan are \$22,722,290.

The amount estimated for Federal Income and Excess-Profits Tax is \$10,352,559.

\$2,400,000 has been set aside for the Pension Plan. This is approximately equivalent to the annual normal requirement of the Plan, together with 10% of the original past service liability, as estimated by the Company's actuaries in 1947.

The final consolidated net earnings after all deductions are \$9,969,731.

After allowing for Preferred Dividends, these earnings are equivalent to \$7.29 per share on the outstanding 1,277,854 shares of Common Stock.

The results of this year's operations topped all previous years both in sales and earnings. Sales were 4.2% larger than last year and earnings before Federal Income

Taxes were \$2,833,183 better. Practically all divisions of the Company contributed to this increase. There was a substantial gain in the principal part of the Company's business, namely in sales of consumer products through the Company's dealers and stores. Super Kem-Tone and Kem-Glo continue to enjoy the highest acceptance in the country in their respective fields of wall paint and all-purpose enamel. Sales of these two products substantially exceeded those of any previous year. The volume of industrial finishes also was considerably greater than last year. The Pigment and Chemical Division sales were just about even with the previous year. A decline in sales to the Government, on which the profit margin is negligible, brought down to some extent the average percent in the sales gain for the year.

Plant expenditures covered a great many additions and improvements to existing facilities, none of which, however, were large enough to require special comment.

Referring to the Company's foreign investments, the earnings of the Cuban and Mexican corporations are included in the consolidated income and compare very favorably with previous years. A new plant is being built in Mexico, which will be paid for entirely out of funds accumulated from earnings in Mexico. The profits of the Brazilian Company are not taken into the Company's consolidated earnings on account of exchange restrictions, but this year it was possible to transfer a substantial dividend in dollars to this country. As to Argentina, this year final payment will be made out of the earnings of the Argentine Company to liquidate the

loan that was originally granted by a bank in Buenos Aires to finance our entire investment there. In other words, the whole undertaking will have been paid for out of earnings of the Argentine Company with no dollars involved.

As above stated, \$2,400,000 has been appropriated for the Pension fund. During the year an amendment was made to the Plan whereby all compensation except overtime is treated as creditable earnings in determining an employee's pension. There was also adopted another amendment according to which the Plan contains no maximum limitation on the amount of pension benefits, except such as is inherent in the benefit formula.

Once again the management expresses its thanks to the staff in our plants, offices, and branches for their loyalty and enthusiastic support in promoting the interests of the Company.

President.

AUDITORS' CERTIFICATE

Board of Directors,
The Sherwin-Williams Company,
Cleveland, Ohio.

We have examined the consolidated balance sheet of The Sherwin-Williams Company and consolidated subsidiaries as of August 31, 1953, and the related statements of consolidated profit and loss and surplus for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet and summaries of profit and loss and surplus present fairly the consolidated financial position of The Sherwin-Williams Company and consolidated subsidiaries at August 31, 1953, and the consolidated results of their operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.
