Julius:

Myrle Self asked me to mention to you last week that in 95% of Proko products the asbestos content will be down to 3-5% by June 1, 1977, with the remaining 5% of the consumer products asbestos-free.

He did mention that there is a move by other of his competition toward asbestos-free or substantially-reduced asbestos containing products, and I again mentioned to him that I thought this was good progress and that he should be ready to completely eliminate asbestos on short notice should competition or regulation move in this direction.
