Tate,  
Attached is the governors' thank you letter to Administrator Pruitt. Please share a copy with the Administrator. You and Troy are copied on the letter.  
We should schedule a conference call with a small group of staff who will help address the governors' suggested regulatory modifications. I've attached the call's briefing memo and governors' letter to President Trump which identifies most of the measures the governors discussed during the call.  
Please suggest possible times for a call with EPA staff at your convenience.  
We look forward to a collaborative and productive working relationship with you and your colleagues.

Larry
