Memorandum on Plant of Keasbey & Mattison Co., Supplementing the General Report "Preliminary Dust Investigation for Asbestos Textile Institute" of June, 1947.

planned for May, 1947 among the same incidence as indicated in the past (see page 15, Plant E), some explanation should be sought in the work history or otherwise for the spectacular discrepancy between these figures and those for plants A, J and J.

E.C.W. Hansen
Dust Engineer
