

March 26, 1942.

Dr. James A. Beer,
185 East State Street,
Columbus, Ohio.

Dear Dr. Beer:

We have a letter from Dr. Eichwald with an attached notation from you concerning some tissues which presumably are involved in a compensation case of some type.

We have no information on this case and no knowledge as to the type of examination that is required. Ordinarily I should allow the matter to go without query, except for a line in the letter which indicates that the filing of a claim for compensation is at issue.

If you will let me know the circumstances in this case and what information is desired, I shall let you know promptly whether we are in a position to obtain such information.

Very truly yours,

Robert A. Kehoe, M. D.

RAK ef

C. C. Dr. E. J. Eichwald,
St. Elizabeth Hospital,
49 Hopeland Street,
Dayton, Ohio.
