G

DETECTIVE FERRETS OUT THE FACTS!

Come in and see how
"G-3" lived up to its
reputation for 43% longer
non-skid mileage!

HERE'S new evidence—*real* evidence—gathered by that famous detective, Joseph A. Faurot—to show how the "G-3" All-Weather *keeps its grip*—gives more miles of non-skid safety on your car.

Last year it proved itself on the test fleet.

Now it has proved itself on the road—by the sensational, daring use of a noted man-hunter to get the facts from car owners.

And here's what that great detective found. *Over and over—investigations showed that the "G-3" All-Weather exceeds its own test-fleet records—gives even more than 43% longer non-skid mileage—at no extra cost.*

Come in! See this big, husky tire with its wider, thicker, tougher, flatter tread—more grip than ever—and patented Supertwist Cord in every ply to protect you from blowouts.

Be sure you get the evidence before you buy any tire.
