III. INDUSTRIAL DEPARTMENT REPORT - Roy G. Benson

Staff

At the January 1962 meeting of the Board of Directors, approval was granted to add an additional man to the Industrial Department staff. We have interviewed a number of people but have not been able to make a satisfactory selection. Either the salary requirements of the individual was too high or the individual did not have the needed experience. We will intensify our effort and hope we will be able to fill this vacancy in the next month.
