

FRICTION MATERIALS STANDARDS INSTITUTE, INC.

BERGEN MALL OFFICE CENTER

E. 210 ROUTE 4

PARAMUS, N. J. 07652

October 3, 1979

Mr. J. W. Armstrong
The Bendix Corporation
Bendix Center
Southfield, MI 48076

Dear Jim:

Based on our September correspondence and phone calls, we have now added three members to the Asbestos Study Committee:

Mr. Don Lee, Nuturn Corporation, World Bestos Division
Mr. George Bohrer, H. K. Porter Co., Thermoid Division
Mr. Richard Dean, Thiokol Corporation, Friction Division

Per our phone call, I also invited the members who had served on the committee in past years to continue their service. They were:

Mr. Geoffrey Nicholson, Abex Corporation, Friction Products Group
Mr. David Stone, Bendix Corporation, Friction Materials Division
Mr. Harry Wagner, Carlisle Corporation, Molded Materials Division
Mr. Ike Weaver, Raybestos-Manhattan, Inc., Raybestos Division

A list of the membership is enclosed. I'm also enclosing a copy of the suggested agenda for the committee meeting--this is the same as that which accompanied my letter of September 18, 1979.

Per the last paragraph in your September 12, 1979 letter, we should now schedule a meeting. Would you please call me with suggested dates for such a meeting. They normally - for travel purposes - should be on a Tuesday, Wednesday or Thursday. Also, I try to give the members about 3 weeks notice, and of course try to avoid conflict with other known meetings. Please give me a call.

Sincerely,

FRICTION MATERIALS STANDARDS INST.

E. W. Drislane
Executive Director
