Interim President and CEO

April 29, 2025

The Honorable Lee Zeldin
Administrator, U.S. Environmental Protection Agency
1200 Pennsylvania Avenue, NW
Washington, DC 20460

Dear Administrator Zeldin:

On behalf of the Edison Electric Institute's (EEI's) Board of Directors, I am pleased to invite you to address EEI's 2025 annual meeting and thought leadership forum, which will be held June 2-4 at the Hyatt Regency New Orleans. Our industry CEOs and our audience would appreciate learning more about your priorities for the EPA and your views on a range of energy and environmental issues.

EEI's member companies—America's investor-owned electric companies—are committed to delivering the reliable, secure energy that powers our nation's economy. Today, demand for electricity is growing at the fastest pace in decades, thanks to new data centers, the rapid growth of AI technologies, and the onshoring of manufacturing. EEI's member companies are committed to working together with the EPA to advance durable public policies and flexible regulations that benefit our customers and meet their growing and evolving needs for electricity that is safe, reliable, affordable, and increasingly clean.

We would like to welcome you as a closing keynote speaker on Wednesday morning, June 4. In addition to the keynote session, we also invite you to attend a private breakfast with our electric company CEOs who serve on EEI's Board of Directors.

We also have keynote sessions on June 2 and June 3, and we are happy to work with your team on the format and specific day/time to accommodate your schedule. Last year's event attracted an audience of more than 1,300 electric company and technology company executives, industry investors, policymakers, corporate customers, and media.

Thank you for your consideration. Should your team have any questions, please ask them to contact Eric Grey, EEI's Vice President of External and Government Affairs, at 202-680-0594 or egrey@eei.org. We look forward to your favorable reply.

Sincerely,
