Hello Holly.

From your bio, I see that you are a UT graduate. Tennessee is a beautiful state!

My daughter recently moved to Franklin, Tennessee, where she works with Dave Ramsey.

Bettering Bell has unique economical coal ash technology that will **protect the environment; Protect workers; Protect employers; Protect utility; Providing much needs jobs in Appalachia; While saving electric power ratepayers' money.**

In our efforts, we applied for a USDA Solid Waste Management grant.

Attached are **bi-partisan Letters of Support** from Senator Mitch McConnell, Senator Joe Manchin, Senator Shelly Capito and Representative Evan Jenkins.

Each sees the merits of our efforts.

It was suggested that we also reach out to the EPA.

**Does the EPA Administration have \$750,000 available to fund a very worthwhile project through an Unsolicited Proposal?**

If you have any questions, please do hesitate to reach out.

Respectfully.

*Charles*
