Dear Dr. Richardson:

In response to your letter of July 4 I am enclosing two copies of information which I hope you find useful. I regret that I have no data relevant to the effect of PCB's on plant growth to share with you. In my search of the literature I have not been able to find reports of any work in this area.

I hope you can share your information with us as your study progresses. If I can be of further service, please let me know.

Sincerely,

W. B. Papageorge
