

Handwritten note to Mr. Scales - July 26, 1956

Dear Dick:

If you have not had direct access to my letter of August 19, 1948, addressed to George Calingaert with a copy to Jack Macauley, I suggest that it might be useful in anticipation of an interview with the Jersey people. Since they might think that I am trying to keep them out of the field, it would - or might - be useful to indicate that what I have said to them is the same as my considered advice to Ethyl.

Signed: Bob
