Henry,
I have kept John Wang, our Chem MAP in SH informed of this event.
Alfred

Sarah, Patsy,
As requested, I shall attend above on behalf of Shell. Appreciate if you can send me details of the Shanghai events this week so we can arrange travel/logistics. Also appreciate if you send me the latest Q&A plus status of project for my prereading.
I suggest also that Alfred and our Chem MAP in Shanghai should join me in the event.

Nick
Please advise any EA angle or requirements.

Angel,
Please liaise with Sarah, Patsy and Alfred on arrangements and logistics.

Alfred,
Please advise Shanghai Chem MAP
Best Regards,
Henry Wang

Nick,
I can attend if required. It may also be useful for Jack Huang, the Shell Chemical Shanghai MAP, who is already in Shanghai to attend for his future contacts. However he may need some additional support from us on representation as he is only JG4.
Best Regards,

Henry Wang

Henry,

If you scroll to Patsy's note you will see there is a launch date of this project on Dec 8,9 or 10. I would attend but will be away that week on leave I hope. Can you make it as you are closest person we have to chemicals available?

Nick-

Hope all is well. Please see Patsy's note below - let me know if you have any thoughts. Apologies for not catching up sooner - issues in chemicals have been a bit overwhelming the past few months.

I am going to send you a DRAFT update on the project to this email - looks like things are finally getting moving now that the financial issues are just now being resolved.

We need to catch up on the stakeholder stuff - Let me know a good time to catch you this week. I will be in Houston Monday through Thursday and in New York on Friday.

Also, let me know if you are planning to come over the states or London any time soon. I am planning a trip to London in early December.

Best Regards,

Lauren

Subject: SHS Launch Event in Shanghai

Importance: High

Plans are being made to have a "launch event" in Shanghai officially recognizing the collaboration between the University of Colorado and Fudan University on the Shanghai Health Study. This is being done to meet expectations of the Chinese culture for such projects. It is tentatively scheduled for Dec 8, 9, or 10. You can read the details as they currently are known in the note below. Shell should consider whether we want to send someone to represent Shell and begin the contact. I would welcome suggestions and then can work with Sarah and Lauren to coordinate.

Regards,

Patsy

Sent: Wednesday, October 29, 2003 9:47 AM

To: BHRC Oversight Committee (E-mail)

Cc: BHRC Technical Committee (E-mail); BHRC Communications Committee (E-mail)

Subject: FW: SHS Launch Event

Importance: High

Message forwarded from Lynn Russo, Chair of the BHRC Communications Committee:

Rich Irons recently communicated about his plans for the launch event. I

think this gives us enough information to begin planning our own

organization's participation in the event. Please let Matt know who in your

company should receive an invitation to attend. And let me know if you

have any questions.

The launch under discussion is to celebrate the laboratory's construction, start-up and operation, making it an event marking the collaboration

between Fudan and Colorado. The companies' role is a supporting one--as a

funder rather than a collaborator. The dates being considered are December

8, 9 or 10 and the event would be in Shanghai. Other details--size, type of event (reception or dinner or some of each)--are still being worked out.

However, it looks like the most senior officials involved are likely to be

Vice Mayor Yan Xiaodo, a Vice President from Fudan (or perhaps the

President), and the U.S. Consul General.

Patrick Beatty has indicated he can attend on those dates, representing the Consortium. Other company representation is up to each consortium member to decide. As one example, I think ExxonMobil will have someone from our Beijing office attend and will not send anyone from the U.S.
