New York, September 18, 1937

Mr. H. R. Barrett,
Comptroller,
Chicago Office.

For my Dad, ask if you would care to help him with a review of the Gypsum Company's experience with silicosis or asbestosis? Recall that you had told me about several cases that the company had, and he now has a suit against him by a former assistant bookkeeper of the old National Asbestos Company, whose desk at least more than 200 feet away from any machinery; as well as being segregated in the office from the factory.

If you will be kind enough to give us your experience, and at the same time the attorney for your company who handles your cases, it will be very much appreciated by both Dad and myself.

C. G. SCHARNATH
MANAGER, ASBESTOS COVERING SALES
