Subject: RE: Access to IT Grants Systems

Hi Kathryn,

You should be all set now. I received notice from the EISD hotline that the last open ticket # INC1587548, which is to install the Oracle SQL Developer client on your laptop, is underway. This is noted in this ticket, Ex. 6 added to the deployment collection Oracle SQL Developer 24.3.1".

Just let us know if you run into any issues.

Thanks,
Kevin

Subject: Access to IT Grants Systems

Good Morning Kathryn,

You should now have access to multiple EPA IT grants systems, including:

- An NGGS user account with read-only access to all of EPA's Regions
- A Comply app read only account
- Access to the Grants Datamart via the SAP BI Web Intelligence tool

Also, we have created the following requests for additional software and access that Cole has that should prove helpful:

- An order for Oracle SQL Developer to be installed on your laptop Ticket # [INC1587548](#)
- Direct SQL access to the Grants Datamart Oracle database, which I will be providing to you in a separate email.

We'll keep you updated on the request that are in progress.

Thanks,
Kevin
